Hello again!

Sue and I have been doing quite well. Following this segment are some of the exciting things that happened while we were in Mexico,

We returned from Mexico two weeks ago, and today we are off to Malaysia till the 20th of December.

In Mexico we were joined by two ministers from Australia, who were with us on this venture, whom we have been training with for 15 years in Aus who have determined to become fellowship members... so we plan to extend into Australia.

Sue and I, along with Scott McDonald, arrived in Mexico on Friday, 14 October. We were met by David Quezada at the airport, escorted to the bus terminal and had a grand chat on the 2 hour trip to Cuernavaca.

A few days later we welcomed our two team mates from Australia, Terry Cahill and Mark Pearce, and Trevor Harris from Seattle.

On Sunday we went 5 different directions as people came to scurry us to the several appointments for the churches and ministries we spent time with. The results have been wonderful. Salvation, prophetic and making of new friends!

We stayed at the home of a seminary trained Doctor of Theology. He is a Doctor of Law and is a lecturer at the University of Cuernavaca College of Law. Also, he is a practicing Chiropractor.

One month before our arrival, he was teaching in the church that there is *no prophesy today. That era in the church is over.*

When his wife heard we were coming, she wanted to come for a personal word! She brought the doctor along! When they bowed their heads to see what the Lord would say, Lin took their hands asking them to believe and listen. The words came..... *"I want you to lay your hands on the sick and believe for them to be healed!"*

Well, the next day, he was "moved" to visit his friend who was ill in the hospital. While there, the doctor "was moved" to ask if he could pray for his friend. As he prayed, he said *"my hands became very hot! When I opened my eyes to see what was happening to my hands, I saw orange glow all around them! I was shaken and continued to shake! My friend began to cry and feel the presence of Christ Jesus!"*

The Doctor told his wife, she called their daughter to tell the good news. The daughter drove 2.5 hours to the house to get a prophetic word!

She was instructed to listen to the voice of the Lord. Believe that He wants to talk to you!

The following day, working for the police as a therapist, she was conversing with an inmate. His criminal record was extensive! As she was working, she heard a voice say to her, "Tell him Jesus loves him". "I can't do that! I am working!" she thought. Two more times the voice came, "Tell him Jesus loves him".

She determined to do something about it, so asked the inmate if she could pray for him. "Yes" was his reply. As she prayed, she said, "I think Jesus wants me to tell you that He loves you".

The man began crying and sobbing, saying he has hungered for love from God!

Keeping In Touch

Pastor Obed Estela brought pictures for us to wonder about. They were of a men's meeting in Cuernavaca at a fellowship church. The men were praising God, asking for Him to show them His direction for them as men and as a church family.

Suddenly, the lights went out. So, they lit a fire. It was a small camp fire. Someone had a desire to remember the event with digital pictures. And then it happened!

The men were seen on the

camera worshipping the Lord, singing and playing the guitar! The men only saw darkness, stars, shadowy smiles and the guitar as it was strummed.

The Camera saw FLAMES OF FIRE..... Leaping out of the camp-fire. The flames were 10 to 12 feet high! Again, the camera saw swirling fire above the top of the picture!

Then, there were flames above the fire and on the worshippers!

Pastor Obed said, "What does this mean?" No one saw it but the camera! How can this happen with a digital Camera?

Conclusion: I don't know. This kind of thing has happened many times! We can say, it is exhilarating to know it happened at a time of praising the Lord. The men at the meeting were greatly encouraged!

Pastor Dr. Victor is off to Peru

Victor will be gone for 10 days, to be returning on the 19th. As a medical doctor, he will be a great blessing in ministering to the spiritual and physical needs of the people of Peru.

We hope to have a good relationship with the saints in Peru first, then Chile and south into the continent. He will be ministering to the ill among the villages. The lines are expected to be long when the villagers hear that a Pastor who is also an MD is there to care for them. He expects to have a wonderful time. We prayed for him again and again as the team let him leave the house where we were staying in Cuernavaca. The trip to Lima will take 6 hours. The flight to the first city will take 2 hours and the travel by car and foot will take another hour. We are excited for what the Lord is planning for now and the future! Simon, our contact in Peru is excited and thrilled too!

Future hopes and plans:

- Sue and I will be visiting Mexico again in February, 2006 for meetings with the Leaders to solidify their vision and structure of the local churches.
- We will be bringing David Quezada (son of Amato and Nina) to the states to aid his familiarity with the ministries in FCMI-USA. He is a future leader and translator.
- Pray Peru and Chile will be used as open doors to expand the fellowship into the nations of South America.
- Train leaders in Seminars and Prophetic meetings for experience in listening to the voice of the Lord.
- Many men and Women have been blessed with the gifts from the Holy Spirit; they need to grow by doing the Word of Christ.
- Open doors among other fellowships that are in the countries we have visited.
- Financial Partners who will stand and walk with us into the white fields of harvest. If you can't go, send us in your place!
